MAGNETIC TANK BAGS

All our magnetic tank bags are handmade of quality lambskin leather. Perfect for storage of smaller items such as cell phones, garage door openers, gloves, wallets, cigarettes, goggles, and cameras. These items are easily accessible to the rider when kept in our padded magnetic tank bags. Our soft, pliable leather allows for scratch-free use on all metal fuel tanks. The strong neodymium magnetic holding power enables our bags to remain in position at all safe speeds. Leather loops on the back provide the user a means to attach the bag to a belt for safe keeping when away from the motorcycle.
