

WE NOW CARRY!

RIDE-ON

**Ride-On Motorcycle Formula Tire Sealant
#41208**

This case is supplied with twelve 8-oz. bottles of Ride-On TPS tire sealant for motorcycles, 12 installation instructions, 12 dosage tables, 12 valve core removal tools, and 12 installation hoses. Each bottle contains enough Ride-On to treat an average motorcycle tire. Ride-On Tire Protection System tire sealant for Motorcycles has been designed for use in high speed applications without causing vibrations. Ride-On TPS tire sealant for Motorcycles helps improve the tire balance, seals punctures from objects up to 1/4" (1/8" for tubes) in diameter, prevents flats and helps tires last longer. Ride-On TPS tire sealant for Motorcycles contains corrosion inhibitors that protect aluminum and steel wheels against rust. Ride-On also helps reduce dry rot and eliminate the tiny, invisible porosity leaks that cause tires to deflate over time. Ride-On TPS for Motorcycles saves you money by increasing tire life, reducing down time, and lowering road service calls.
